

The Cool Water Program

Would a new water bottle filling station improve the health of your students?

The Cool Water Program encourages elementary and middle school students and staff to drink more water, helping to reduce cavities and improve overall health. The Delta Dental of Wisconsin Foundation will select 15 schools to receive one new dual water bottle filling station and fountain. Additionally, each student and staff member in the school will receive a toothbrush and reusable water bottle.

Criteria for selection

- Schools must be within a community with optimally fluoridated water.
- Schools must have a free-and-reduced lunch rate of 40 percent or higher.
- Schools can apply if they currently do not have a water fountain or water bottle filling station installed.
- Selection will be based on the schools with the most creative and impactful implementation plan to encourage students and staff to drink more water.

Application information

The application to apply for our inaugural year of 2019 will be available **February 1 through March 31** at www.deltadentalwi.com/foundation. Selections will be made in April, with installation during the summer break.
